Re: Southdown, Inc.
CKD Landfill No. 1
Fairborn, Ohio

Dear Ms. **Simstad**:

As promised at the April 12, 1995 meeting with representatives of Southdown, Inc. (Southdown), **Panterra** Corporation (**Panterra**) and Ernie Neal, we are providing this monthly update on activities conducted at the Landfill No. 1 site. The purpose of this update is to keep the Agency informed on the nature and extent of site developments in the event that inquiries arise.

During the past month, the report on the Phase I investigation was finalized by our consultant **Panterra** Corp. and distributed to both Southdown and USX Corp. A supplemental report discussing the results of the effectiveness of the cover materials applied to areas of exposed CKD will be completed sometime in June. Other activities conducted during the past month include continued measurement of ground water levels and surface water flows as well as observation of the pilot test applications of potential CKD cover materials.

I trust that the above is sufficient to keep the Agency informed of the activities performed to date at the Landfill No. 1 site. Should you need additional information, please feel free to contact me at (713) 653-6956.

Sincerely,

Daniel W. Heintz
Vice President
Environmental Affairs
